| AR2a | Bethel                                    | Campground adjacent to "Outdoor Adventures" sporting store at Rte 2/5/26 crossing. Canoe launch site here. The bridge has no sidewalk and is not a great place for sampling. For safety reasons, it is recommended to do all sampling from a boat.   |
|------|---|--|
| AR3  | Hartford Bridge                           | 2nd (lower) bridge in downtown Rumford. Upper bridge is Canal bridge or Rte 108 crossing. Hartford Bridge receives little traffic and is a quieter sampling site for DO/temp. Both bridges have sidewalks.   |
| AR3a | 0.5 mi abv Virginia Br                    | There is a canoe launch area accessible by crossing Virginia bridge from Rte 2 and driving 0.5 miles upriver. Do secchi here.  |
| AR4  | Dixfield Bridge                           | River bridge crossing from Rte 108 in West Peru to Rte 2/17 in Dixfield. Has sidewalks. Good place to sample DO/Temp.  |
|      |   |  |
| AR5  | Riley Dam                                 | There is a canoe carry in launch site with signage off Rte 108 on gravel rd. Access below dam is a much shorter walk than access above dam, the latter of which terminates down a steep bank but with good steps. If you're feeling frisky, the above is more  |
| AR6  |   |  |
| AITO | Livermore Falls Rte 4                     | Good wide sidewalks. Good place to sample DO/ temp. No easy place to sample secchi due to steep banks.   |
| AR6a | Livermore Falls Rte 4  Below Pine Island. | Good wide sidewalks. Good place to sample DO/ temp. No easy place to sample secchi due to steep banks.  Cross bridge headed torward IP mill. After you cross the river, just a liitle bit ahead on the right, there is a gravel road leading to the Pine Island carry in boat launch site. Paddle the canoe below the island and take secchi on the NE side of the riv |
